TIPS and SUGGESTIONS

We highly suggest to book your flight immediately after you have received our confirmation thus the earlier you book, the cheaper it might be. We have had great experience by doing this with www.opodo.de and therefore we can recommend it.

The finalizing of the journey refund of the deposit is recommended, but it is left however to the participant's choice. We recommend you to check with your insurance carrier for services and prices.

Please take the time to consider if you would like to book additional events (see factsheet), doing so makes it easier for us to reserve the desired occasion and give you the best seat possible and as a result making your experience more unique and personal.

Although Cuba emanates a dispassionate charm and great charisma, it is not an easy travel destination. We have done and will continue doing everything to make your stay as pleasant and trouble-free as possible.

Nevertheless, it is always good to bring along a certain amount of peace, patience and serenity. The Caribbean life style, culture, and ways of doing things are very different from ours.

As social and cultural etiquette we ask to refrain on making any political statements or remarks, this could come to have very unpleasant consequences not only for you but for us and for fellow travelers as well.

We highly stress the fact to pay attention to the main rules that must be adhered to in Cuba; if you follow the instructions, you will not only have a great time but you will also experience a great, unforgettable tour.

You have our word on it!

We look forward on having you with us and on making your **DREAMS COME TRUE.**
